

**Custom designed USB's - We can make any shape USB flash drive from scratch.**

The minimum order is only 250 units on simpler designs and 500 on complex ones

A mould cost is applicable

The design process is outlined in the picture below.

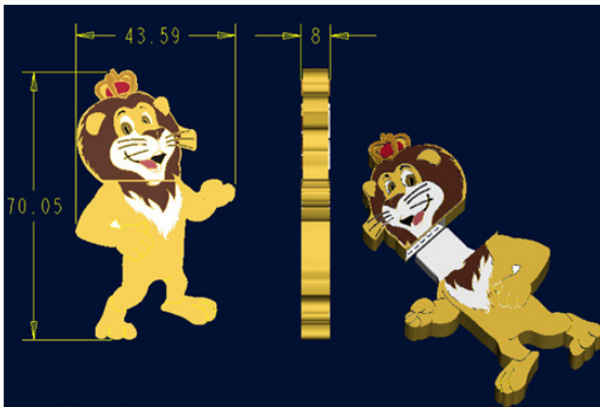

1. We need to submit a drawing to our factory
2. They will quote based on this drawing
3. Once quote is accepted the factory will do a 3D drawing
4. We make changes or approve drawing
5. An initial sample is made, photographs taken and emailed to us to check design and colour
6. We approve photo's and go to mass production

Turnaround on custom made flash drives varies between 3 and 6 weeks.

**Custom Moulded USB process - Simba Lion**

**1. Drawing from Client  
Sent to factory**

**2. Factory drawing with dimensions  
sent back to us for approval.**
